

WSRMP Members,

WSRMP provides our membership with valuable HR and cyber security resources through our partnership with Enquiron. To ensure that we are equipping you with the most current technology, Enquiron will be upgrading your portal in the coming weeks. The newly enhanced Client Portal will have many of the popular features of the current platform, along with some exciting new offerings, including access to many more online training courses.

### **What upgrades will we see?**

Learn more about the upgrades with this [comparison chart](#).

### **How Will this Impact My District?**

Downtime is expected to be limited. Within the next few weeks, Enquiron will send a welcome email that will prompt you to create a new login to access the upgraded portal.

### **How can I learn more about this upgrade to our portal?**

If you have any immediate questions about this upcoming change or the Enquiron platform, please feel free to contact Zywave by phone at 877.560.6655.

### **Our District has never used Enquiron. What is it, and how do we get started?**

This [HR & Cyber Resource Center](#) is designed to help members navigate the complex issues that human resources and cyber professionals encounter on a daily basis. **This platform is available to WSRMP members at no extra cost**, and there is no limit to the number of users, so each district can add as many additional employees as you would like directly from your account. WSRMP encourages you to take full advantage of the on-demand resources Enquiron has to offer.

Highlights of the Enquiron Resource Center include:

- Resources that address key employment-related HR and cyber security issues.
- Unlimited answers to your HR and employment-related and cyber security questions.
- A state-specific employee handbook and policy builder and online training including employee and supervisor sexual harassment prevention.
- A simple assessment to help you identify and a plan to mitigate cyber security risks.
- Free initial phishing test and online training to help your employees learn to spot and avoid cyber security threats.
- A customizable incident response plan, forms, posters, policies, best practice guides and more.
- Live and on-demand access to topical webinars, some including HRCI credits for HR professionals.
- Vetted resources available for ongoing and additional cyber protection

**Have questions about your access? Contact Enquiron at 877.568.6655.**
